

KAVEEN GIMHANA PERERA

Project Manager | UI/UX Designer | Front End Developer

+94 76 91 86 054 | pererakaveen707@gmail.com | linkedin.com/in/kaveen-perera | Panadura, Sri Lanka

PROFESSIONAL SUMMARY

Final-year Computer Science undergraduate at the University of Plymouth with hands-on experience managing projects end-to-end, gained through a 6-month contract role at Vizualabs and ongoing freelance client engagements. Skilled at planning project scope, coordinating cross-functional design and development teams, managing client relationships, and delivering projects on time in the healthcare domain. Proven leadership track record through university societies and national-level events, including leading a computing association as Chief Executive, leading technical and design teams at inter-university competitions, and coordinating multi-stakeholder events end-to-end. Comfortable working across the full project lifecycle — planning, execution, risk management, stakeholder communication, and delivery. Seeking a Project Manager role to apply strong organizational, leadership, and stakeholder management skills to a dynamic team.

EDUCATION

BSc (Hons) Computer Science

2023 – Present

University of Plymouth, Ad Astra — NSBM Green University, Sri Lanka

- Relevant Coursework: HCI & Computer Graphics, Full Stack Development, AI & Machine Learning, Big Data Analytics, Mobile Application Development, Software Development Tools & Practices, Information Management & Retrieval, Algorithms & Data Structures, Database Management Systems, Web & Mobile Development
- Computing Individual Project (Final Year)

Diploma in Human Resource Management

2022 – 2023

SITC Campus

Diploma in Sociology

2021 – 2022

SITC Campus

GCE Advanced Level – Physical Science Stream

2022 / 2023

Royal College Panadura

GCE Ordinary Level

2019

Royal College Panadura

WORK EXPERIENCE

UI/UX Engineer & Frontend Developer (Contract)

Aug 2025 – Feb 2026 · 6 months

Vizualabs — Panadura, Sri Lanka

- Coordinated delivery across multiple concurrent client projects, managing timelines, task handoffs between design and development, and ensuring quality and consistency across deliverables.
- Acted as a communication bridge between clients, designers, and developers, keeping all parties aligned on scope, priorities, and deadlines.
- Tracked project progress against deliverables, proactively flagging risks and delays to keep projects on schedule.
- Recognized by the company for strong ownership, reliability, and consistent, timely delivery across projects.

Freelance Project Lead & UI/UX Designer

Aug 2025 – Present

Self-Employed

- Managed the full project lifecycle — planning, scoping, execution, and delivery — for multiple healthcare-domain client projects, working directly with clients from kickoff to handoff.
- Planned project timelines and milestones, coordinating design and delivery work to meet agreed deadlines.
- Served as sole point of contact for client communication, managing expectations, scope changes, and feedback cycles throughout each engagement.

- Independently managed multiple client relationships in parallel, demonstrating strong prioritization, organization, and ownership of outcomes.

PROJECTS

One Drop — Blood & Bio Resource Management System

Final Year Project

University of Plymouth (Final Year Individual Project) | Tools: Figma, Flutter, Node.js, Supabase

- Owned end-to-end delivery of a blood and biological resource management platform, from initial scoping and planning through to final build, as sole project lead.
- Planned and sequenced project phases — research, design, and development — to keep the individual project on track against academic deadlines.
- Coordinated integration across mobile (Flutter), backend (Node.js), and database (Supabase) components, managing technical dependencies and delivery risk.
- Ran structured usability testing with diverse user groups to validate the solution before final delivery, incorporating feedback into the project plan.

StudyZen — Student Productivity & Organization App

University Group Project

Tools: Figma, Flutter, Dart

- Led project planning and scoping for a student productivity app, defining a structured feature set and delivery plan within the team.
- Coordinated task ownership across the team, aligning design and development work to a shared timeline.

MovieNest — Cinema Booking System

University Group Project

Tools: Figma, MongoDB, Express.js, React.js, Node.js (MERN)

- Coordinated end-to-end delivery of a full-stack cinema booking platform, aligning design work with the MERN-stack development timeline.
- Managed task handoffs between design and development to keep the seat-selection and booking flow on track for delivery.

Mauve Studio — Furniture Design & Visualization App

University Group Project

Tools: Figma, React.js, Node.js, Express.js, 2D/3D Integration

- Planned and coordinated delivery of a furniture visualization app, sequencing design and 2D/3D development work across the team.
- Tracked progress across product browsing and visualization modules, ensuring the team stayed aligned to project scope and timeline.

Real-Time Air Quality Monitoring Dashboard — Colombo Metropolitan Area

University Group Project

Tools: HTML, CSS, JavaScript, Leaflet.js, Chart.js, PHP, Laravel, MySQL

- Coordinated cross-functional delivery of a real-time environmental monitoring dashboard, aligning frontend, mapping, and backend workstreams.
- Managed project scope and delivery timeline across the team to ensure the dashboard was completed and integrated on schedule.

SKILLS

Project Management: Project Planning & Scoping, Timeline & Milestone Management, Risk Identification, Resource Coordination, Full Project Lifecycle Ownership, Task & Team Coordination

Stakeholder & Client Management: Client Communication, Stakeholder Alignment, Expectation Management, Cross-Functional Team Coordination, Status Reporting

Delivery & Process: Requirements Documentation, User Flows & Process Mapping, Usability Validation, Quality Consistency Checks, Accessibility Standards (WCAG)

Tools: Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop, InVision, Git & GitHub, Microsoft Office, Trello, Jira, Clickup

AI-Assisted Tools: Galileo AI, Uizard, Khroma, Midjourney, Adobe Firefly, Microsoft Designer

Technical Fluency: HTML5, CSS3, JavaScript (ES6+) supports effective collaboration with development teams

Soft Skills: Leadership, Team Coordination, Problem Solving, Prioritization, Multi-Project Ownership

Languages: English (Proficient), Sinhala (Native)

LEADERSHIP & UNIVERSITY INVOLVEMENT

Chief Executive Apr 2026 – Apr 2027

Association of Computer & Data Science (ACDS) — NSBM Green University

- Lead the university's premier computing association, overseeing planning and execution of society-wide activities, events, and strategic direction across multiple teams.

Executive Committee Member Sep 2024 – Apr 2026

Association of Computer & Data Science (ACDS) — NSBM Green University

- Planned and executed society events, workshops, and competitions, coordinating logistics and cross-team collaboration for the computing faculty.

Executive Committee Member Aug 2025 – Present

CSSL GenZ Chapter — NSBM Green University

- Active member of the Computer Society of Sri Lanka's youth chapter, contributing to planning and delivery of tech community initiatives.

Chief Designer Lead Jun 2025 – Mar 2026

Hackathon Hub of NSBM

- Led the design team for hackathon events, managing timelines and deliverables across visual identity, branding, and event assets.

Designer Jan 2024 – Jan 2025

Literature Circle of NSBM

- Created visual content and design materials supporting the society's literary events and publications.

VOLUNTEER EXPERIENCE

Organizing Committee Member Oct 2025

National IT Conference (NITC) by CSSL (Computer Society of Sri Lanka)

- Contributed to organizing Sri Lanka's premier national IT conference, coordinating logistics, timelines, and event management tasks across teams.

Technical Team Leader Jan 2025 – Jul 2025

Nexora 1.0 Inter University Datathon — organized by ACDS NSBM

- Led the technical team at a national-level inter-university datathon, managing setup, task delegation, and team coordination under event deadlines.

Design Team Leader Jan 2025 – Mar 2025

Figma UI/UX Design Workshop — organized by ACDS NSBM

- Led the design team for a university-level UI/UX design workshop, managing timelines and deliverables for all visual materials and event graphics.

Vice-Chairperson

Jan 2025 – Feb 2025

"ගර්භනන් ආසලට්" CSR Project — ACDS NSBM

- Served as Lecturer and Co-organizer for an O/L support seminar series delivering knowledge-sharing sessions to school students.

Design Team Leader

Oct 2024 – Nov 2024

AlgoXplore 1.0 Programming & CTF Competition — Hackathon Hub of NSBM

- Led design team responsible for competition branding and all visual collateral.

Design Team Member

Dec 2024 – Jan 2025

Data Dive — Power BI Workshop & Competition, ACDS NSBM

- Contributed design support for workshop and competition materials.

Design Team Member

Oct 2023 – Dec 2023

NSBM Green Fiesta Grand Musical Event

- Designed visual content and event materials for the university's flagship annual musical event.
