

KAVEEN GIMHANA PERERA

UI/UX Designer & Frontend Developer | Computer Science Undergraduate

+94 769 186 054 | pererakaveen707@gmail.com | linkedin.com/in/kaveen-perera | behance.net/kaveengperera | Panadura, Sri Lanka

PROFESSIONAL SUMMARY

Final-year Computer Science undergraduate at the University of Plymouth with demonstrated UI/UX and frontend development expertise gained through a 6-month contract role at Vizualabs and ongoing freelance engagements. Experienced in designing user-centered interfaces for healthcare mobile and web applications, with proficiency in industry-standard design and AI-assisted design tools. Complemented by active leadership in university societies and extensive volunteer experience at national-level events. Seeking a UI/UX internship to contribute creative design thinking and technical skills to a dynamic team.

EDUCATION

BSc (Hons) Computer Science

2023 – Present

University of Plymouth, Ad As — NSBM Green University, Sri Lanka

- Relevant Coursework: HCI & Computer Graphics, Full Stack Development, AI & Machine Learning, Big Data Analytics, Mobile Application Development, Software Development Tools & Practices, Information Management & Retrieval, Algorithms & Data Structures, Database Management Systems, Web & Mobile Development
- Computing Individual Project (Final Year)

Diploma in Human Resource Management

2022 – 2023

SITC Campus

Diploma in Sociology

2021 – 2022

SITC Campus

GCE Advanced Level - Physical Science Stream

2022 / 2023

Royal College Panadura

GCE Ordinary Level

2019

Royal College Panadura

WORK EXPERIENCE

UI/UX Engineer & Frontend Developer (Contract)

Aug 2025 – Feb 2026 · 6 months

Vizualabs — Panadura, Sri Lanka

- Contributed to UI/UX design and frontend development across multiple client projects, delivering responsive and user-friendly web applications.
- Designed and iterated on user interfaces focusing on user experience improvements, accessibility, and visual consistency.
- Developed frontend components using HTML, CSS, and JavaScript, ensuring pixel-perfect implementation aligned with design handoffs.
- Demonstrated strong technical knowledge, creativity, and the ability to deliver within given timelines as recognized by the company.

Freelance UI/UX Designer & Frontend Developer

Aug 2025 – Present

Self-Employed

- Designed UI/UX for healthcare domain mobile and web applications, managing full project lifecycle from requirements gathering to final delivery.
- Applied user research, wireframing, prototyping, and usability testing to create intuitive, accessible designs.
- Managed client communications, project timelines, and deliverables independently, demonstrating strong project management skills.
- Delivered responsive frontend implementations alongside design assets for client handoff.

PROJECTS

FINAL YEAR PROJECT

One Drop — Blood & Bio Resource Management System

Final Year Project

University of Plymouth (Final Year Individual Project)

Tools & Stack: [\[Figma\]](#) [\[Flutter\]](#) [\[Node.js\]](#) [\[Supabase\]](#)

- Designed and developed a comprehensive blood and biological resource management platform addressing critical shortfalls in healthcare resource coordination.
- Conducted end-to-end UI/UX design in Figma including user flows, wireframes, and high-fidelity prototypes for both mobile and web interfaces.
- Built the mobile application using Flutter for cross-platform deployment and developed the web application backend using Node.js.
- Integrated Supabase as the cloud database for real-time data synchronization of donor records, resource inventory, and request tracking.
- Applied accessibility and inclusive design principles to ensure usability across diverse user groups in a healthcare context.

UNIVERSITY GROUP PROJECTS

StudyZen — Student Productivity & Organization Mobile App

Group Project

University Group Project

Tools & Stack: [\[Figma\]](#) [\[Flutter\]](#) [\[Dart\]](#)

- Designed a feature-rich productivity and organization mobile app tailored to student workflows, addressing challenges in task management, scheduling, and focus.
- Led UI/UX design in Figma covering information architecture, user journey mapping, and a clean, distraction-free visual system optimized for student focus.
- Developed the mobile application using Flutter and Dart, implementing features such as task tracking, study timer, and progress visualization.

MovieNest — Cinema Booking System

Group Project

University Group Project

Tools & Stack: [\[Figma\]](#) [\[MongoDB\]](#) [\[Express.js\]](#) [\[React.js\]](#) [\[Node.js \(MERN\)\]](#)

- Designed and developed a full-stack cinema seat booking platform enabling users to browse movies, select showtimes, choose seats, and complete bookings seamlessly.
- Created high-fidelity UI/UX designs in Figma with intuitive seat-map interactions, booking flows, and responsive layouts for web.
- Built the full-stack application using the MERN stack (MongoDB, Express.js, React.js, Node.js), delivering a dynamic and scalable web experience.

Mauve Studio — Furniture Design & Visualization App

Group Project

University Group Project

Tools & Stack: [\[Figma\]](#) [\[React.js\]](#) [\[Node.js\]](#) [\[Express.js\]](#) [\[2D/3D Integration\]](#)

- Designed and developed a furniture design application enabling users to explore, customize, and visualize furniture pieces in both 2D and 3D environments.
- Produced detailed UI/UX designs in Figma covering product browsing, room layout planning, and 3D preview interactions.
- Integrated 2D and 3D visualization capabilities within the MERN stack web application, enabling immersive product exploration prior to purchase.

Real-Time Air Quality Monitoring Dashboard — Colombo Metropolitan Area

Group Project

University Group Project

Tools & Stack: [\[HTML\]](#) [\[CSS\]](#) [\[JavaScript\]](#) [\[Leaflet.js\]](#) [\[Chart.js\]](#) [\[PHP\]](#) [\[Laravel\]](#) [\[MySQL\]](#)

- Built a real-time environmental monitoring dashboard visualizing live air quality data across the Colombo Metropolitan Area with interactive mapping.
- Developed interactive maps using Leaflet.js and dynamic data charts using Chart.js to present AQI (Air Quality Index) readings in an accessible, user-friendly interface.
- Implemented the backend using PHP and the Laravel framework with a MySQL database for efficient data storage and API delivery.

INDIVIDUAL UI/UX DESIGN PROJECTS

StayBook — Hotel Booking Mobile App

Figma Design

Individual UI/UX Design Project

Tools & Stack: [Figma]

- Designed a full-featured hotel booking mobile application enabling travelers to discover, filter, and book accommodations seamlessly.
- Developed a complete user flow covering account creation, hotel search and filtering, room details, booking summary, payment gateway, and booking confirmation screens.
- Applied a warm, travel-inspired visual identity with an orange and white palette, clean typography, and intuitive navigation tailored to hospitality UX standards.
- View on Behance: [behance.net/kaveengperera](https://www.behance.net/kaveengperera)

Juno AI — Conversational AI Companion App

Figma Design

Individual UI/UX Design Project

Tools & Stack: [Figma]

- Designed a conversational AI chatbot mobile application focused on delivering a natural, accessible, and emotionally intelligent user experience.
- Created a minimal, purple-toned visual identity and designed key screens including onboarding, chat interface, and branding elements for a cohesive AI product feel.
- Focused on readability, conversational flow, and calming UI aesthetics appropriate for an AI companion context.
- View on Behance: [behance.net/kaveengperera](https://www.behance.net/kaveengperera)

Smart Public Transport App

Figma Design

Individual UI/UX Design Project

Tools & Stack: [Figma]

- Designed a smart public transport mobile application to help commuters navigate bus, train, and transit routes efficiently in real time.
- Focused on clear information hierarchy, live tracking UI patterns, and accessible design for a diverse commuter user base.
- View on Behance: [Figma Link\(Click Here\)](#)

FitFlow — Fitness & Workout Companion App

Figma Design

Individual UI/UX Design Project

Tools & Stack: [Figma]

- Designed a fitness tracking and workout planning mobile application for active individuals seeking structured, goal-oriented training experiences.
- Developed a high-energy, motivational UI with workout routines, progress tracking, and personalized dashboard screens.
- View on Behance : [Figma Link\(Click Here\)](#)

StyleCart — Online Clothing Ordering App

Figma Design

Individual UI/UX Design Project

Tools & Stack: [Figma]

- Designed a fashion e-commerce mobile application for browsing, filtering, and ordering clothing with a smooth and visually engaging shopping experience.
- Designed key screens including home feed, product listings, product detail, cart, checkout, and order confirmation with a modern, clean aesthetic.
- View on Behance: [Figma Link \(Click Here\)](#)

SKILLS

Design Tools: Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop, InVision

AI Design Tools: Galileo AI, Uizard, Khroma, Midjourney (UI concepts), Adobe Firefly, Microsoft Designer

Frontend Development: HTML5, CSS3, JavaScript (ES6+), Responsive Design, Git & GitHub

UX Methods: User Research, Wireframing, Prototyping, Usability Testing, Surveys & Questionnaires, Heuristic Evaluation, Accessibility (WCAG), Style Guides & Design Systems

Other: Project Management, Client Communication, Design Handoff

Languages: English (Proficient), Sinhala (Native)

LEADERSHIP & UNIVERSITY INVOLVEMENT

Chief Executive

Association of Computer & Data Science (ACDS) — NSBM Green University

Apr 2026 – Apr 2027

- Leading the university's premier computing association, overseeing all society activities, events, and strategic direction.

Executive Committee Member

Association of Computer & Data Science (ACDS) — NSBM Green University

Sep 2024 – Apr 2026

- Contributed to planning and executing society events, workshops, and competitions serving the computing faculty.

Executive Committee Member

CSSL GenZ Chapter — NSBM Green University

Aug 2025 – Present

- Active member of the Computer Society of Sri Lanka's youth chapter, contributing to tech community initiatives.

Chief Designer Lead <i>Hackathon Hub of NSBM</i>	<i>Jun 2025 – Mar 2026</i>
Led the design team for hackathon events, responsible for all visual identity, event branding, and design deliverables.	
Designer <i>Literature Circle of NSBM</i>	<i>Jan 2024 – Jan 2025</i>
Created visual content and design materials supporting the society's literary events and publications.	

VOLUNTEER EXPERIENCE

Organizing Committee Member <i>National IT Conference (NITC) by CSSL (Computer Society Of Sri Lanka)</i>	<i>Oct 2025</i>
Contributed to organizing Sri Lanka's premier national IT conference, coordinating logistics and event management tasks.	
Technical Team Leader <i>Nexora 1.0 Inter University Datathon — organized by ACDS NSBM</i>	<i>Jan 2025 – Jul 2025</i>
Led the technical team at a national-level inter-university datathon, managing technical setup and team coordination.	
Design Team Leader <i>Figmate UI/UX Design Workshop — organized by ACDS NSBM</i>	<i>Jan 2025 – Mar 2025</i>
Led the design team for a university-level UI/UX design workshop, producing all visual materials and event graphics.	
Vice-Chairperson <i>"හරිතෙන් පාසලට" CSR Project — ACDS NSBM</i>	<i>Jan 2025 – Feb 2025</i>
Served as Lecturer and Co-organizer for an O/L support seminar series delivering knowledge-sharing sessions to school students.	
Design Team Leader <i>AlgoXplore 1.0 Programming & CTF Competition — Hackathon Hub of NSBM</i>	<i>Oct 2024 – Nov 2024</i>
Led design team responsible for competition branding and all visual collateral.	
Design Team Member <i>Data Dive — Power BI Workshop & Competition, ACDS NSBM</i>	<i>Dec 2024 – Jan 2025</i>
Contributed design support for workshop and competition materials.	
Design Team Member <i>NSBM Green Fiesta Grand Musical Event</i>	<i>Oct 2023 – Dec 2023</i>
Designed visual content and event materials for the university's flagship annual musical event.
